WILSON TAKES ARABIC

BOSTON GIVES A WARM WELCOME TO GOVERNORS

Governor Robert L. Williams of Oklahoma, first of the State executives to reach Boston for the conference.

Leading Democrat of the Southwest, fifty-three years old, a bachelor, and too busy, he says, to think of marriage.

The North Atlantic fleet, consisting of eight battleships and a number of destroyers and submarines, left Newport at 9:30 a. m. today for Boston. The fleet will arrive in Boston harbor tomorrow morning, and will remain till Wednesday noon, when it will steam out for the review, which is expected to take place in the harbor. The fleet is expected to turn south to the Southern fleet grounds.

The battleship coming are the Wyoming, Gage, Kearsage, Texas, Arkansas, Virginia, Georgia, Florida, and Utah.

Today saw the real beginning of the influx of Governors and former Governors for the three-day conference which begins tomorrow.

Boston turned out to do honor to the visitors, and from the very first arrival they met

Russians Win Naval Victory

BIG LOSS IN WEST; 100 MISSING

By International News Service.
ST. LOUIS, Aug. 23.—The country of St. Louis today staggered under the weight of a second disaster. Twelve lives were the toll of the last episode of the overflowing rivers in the section. All were lost along the Meramec River, which was out of its banks.

Doubt Swedish Plan to Buy German Ships

NEW YORK, Aug. 23.—The local managing directors of the Hamburg-American and North German Lloyd steamship lines today knew nothing of the Swedish proposal, as called from Amsterdam, to buy up the German merchant ships interned at Hoboken and other American ports and operate them under the Swedish flag between New York and Scandinavia.

Stranded Cattleman Released at Newton

Rix men who said they were cattleman returning from England, stranded in Boston, were released by Judge Kennedy of the Newton court today. The men were arrested while walking on the railroad tracks. In court they said they shipped as cattleman from Newport News, Va., with the understanding that they be given passage to that place. Instead, they claimed they were sent back to Montreal and from there given tickets to Boston.

Court Dismisses Hatters' Bank Suit

BRIDGEPORT, Ct., Aug. 23.—Judge William H. Williams in the Superior Court today handed down a decision granting a motion to dismiss and strike from the docket the action brought by the United Hatters of America against four savings banks in Danbury and Newhall.

Baker to Sign Up With Newfed Club This Week

NEW YORK, Aug. 23.—"Home run" Frank Baker will sign a contract to play with the Newark Federals before the end of the week unless some unexpected hitch occurs. Baker will sign for three years and will get a yearly salary close to \$15,000.

Liner Canadian in; Saw No Submarines

The Lovland Liner Canadian, carrying a large cargo of wheat, returned from a voyage to Europe and saw no German submarines. The ship was torpedoed by a German submarine on the Atlantic coast.

Missing Man Was Having a Sleep

Nathan Ross, whose family last night reported to the Cambridge and Somerville police that he was missing, was found today asleep in his bed, in his room at No. 215 River street, his home. He entered the house last night and went to bed, without seeing any of the family.

Find Dog that Bit Girl Had Rabies

The State Bureau of Animal Industry today reported that the dog that bit little Helen Smith of No. 13 Beacon street, Somerville, last week, had rabies. The child is rapidly improving.

Pelagosa Evacuated by Italian Forces

VIENNA, Aug. 23.—The Austro-Hungarian authorities today announced that reconnaissance by the Italian forces established the fact that the Italian had evacuated the island of Pelagosa, in the Adriatic, having destroyed all buildings and fortifications.

Fined for Shooting in South Boston

In South Boston court today, Dominio Margola, a barber at No. 215 West Broadway, was fined \$50 on a charge of shooting with a revolver at Joseph L. Power, of 100 West Broadway. On a charge of carrying a revolver he was fined \$25.

Pick Up Body of Man Off Nahant

The naked body of a man, badly decomposed, was picked up today on Nahant. Bridgewater of gold furnished the only feature that might lead to identification.

GERMANS LOSE 11 SHIPS

LONDON, Aug. 23.—Supported by British submarines, the Russian Baltic fleet has inflicted a heavy defeat upon the German fleet in the Gulf of Riga, according to official dispatches today from Petrograd.

More Marines to Go to Haiti

By International News Service.
WASHINGTON, D. C., Aug. 23.—Three hundred and fifty more marines will be sent to Haiti the last of this week, it was learned today.

Give Up Marowine as Lost; 93 on Liner

NEW ORLEANS, Aug. 21.—The missing United Fruit liner Marowine was given up for lost with twenty-eight passengers and a crew of sixty-five in marine circles here today. Little hope is entertained that any of the thirty-three persons on board are alive.

High Humidity Cause of Two Prostrations

A comparatively low temperature but an uncomfortably high humidity had Boston gasping for breath today. Two prostrations attributed to the heat were reported.

Judge Charles A. Barnard of Brighton Resigns

Judge Charles A. Barnard of the Brighton Court has sent to Governor Walsh his resignation. He has been clerk, special justice and presiding judge in the district courts of the county for many years.

VILLA STAKING ALL ON QUICK VICTORY

WASHINGTON, Aug. 22.—General Villa has renewed hostilities against General Carranza in a large scale, according to advice reaching the State Department today. In the suburbs of Monterrey Villa's troops have engaged a large number of Constitutionalists and fierce fighting is reported. Both sides claim an advantage. Villa has full control of the railway line in that section.

CAMBRIDGE MAN'S KNEES WERE BENT AND STIFF

Suffered for Ten Years from Rheumatism of Joints—Waits Almost Two Years Before Publishing Letter.

"I suffered from rheumatic arthritis, or rheumatism of the joints, for ten years and during that time was treated in New York, New Jersey and Boston without results, or at the most only temporary relief," so said R. A. Williams of 6 Beach St., North Cambridge, Mass.

R. A. WILLIAMS.

"My feet were swollen and my ankles troubled me a great deal, my knees were so bad I had to use crutches when I was able to get about. My hands were very stiff and painful and I held them in one position unable to close them. My knees were stiff and sore, so that I was unable to put my feet to the floor; the joints were full of a chicky deposit and you could hear it grating. My hip was stiff and the pain down the sciatic nerve was unbearable. It was impossible to get my arm above my head on account of the pain in the shoulder. At times I could not bear the weight of the bed clothes, unable to help myself and too sore to go about on crutches.

"A friend of mine recommended Var-n-e-s-i-s to me, and as most of the cases I read about were very much like mine, in that the joints were affected, I decided to try it. I can't say that it helped me at first, but I kept at it until every sign and symptom left me. I discarded the crutches and for more than a year and a half I have been working steadily without an ache or pain. I am recommending Var-n-e-s-i-s to everyone that suffers from rheumatism such as I had. The chicky deposit has entirely disappeared. I never thought any medicine could help this."

Var-n-e-s-i-s is the one remedy for rheumatism, especially in chronic cases after ordinary treatments and remedies fail. It cures the inflamed joints, soothes, salivates, lodges or anything that disturbs the stomach or puts the disease to sleep. It is purely vegetable.

Var-n-e-s-i-s is NOT a Cure-All. It has been highly successful in chronic rheumatism of the joints, as attested by the large collection of crutches, wheel chairs, canes, etc., that have been discarded by rheumatic sufferers. No man or woman suffering from rheumatism can afford to ignore this testimonial have been purchased or they are other than genuine.

W. A. Varney says: "It pleases me to hear so many good reports about Var-n-e-s-i-s, and only last week I was talking to a doctor in Maine who said that he sold a great deal of Var-n-e-s-i-s and the results were so satisfactory that he was taking Var-n-e-s-i-s himself as the ordinary remedies failed to have any effect on his rheumatism."

Copies of the newspaper devoted to rheumatism will be mailed to all who address W. A. Varney, Lynn, Mass. Call at the Boston office, 140 Boylston St., and see the mass of evidence. Get Var-n-e-s-i-s at Baker-Joyes and other reliable druggists, and know what good health means—Advertisement.

QUINN DEATH CASE BEFORE GRAND JURY

The Middlesex County Grand Jury today began an investigation into the circumstances surrounding the death of Miss Evelyn Quinn, the Jamaica Plain girl, daughter of Mrs. Maria Quinn, who was killed in an automobile accident on the night of August 12. This action, instigated by District Attorney William J. Corcoran, follows the suspension of the license of William M. N. Slater by the Massachusetts highway commission, upon information, it was explained, that it was young Slater's automobile in which Miss Quinn met her death. William M. N. Slater is the son of Mrs. Mabel Hunt Slater of Beacon street, Boston, and Webster.

Mrs. Slater, accompanied by her daughter, today called upon District Attorney Corcoran at East Cambridge and was closeted with him an hour.

Witnesses who appeared before the Grand Jury included Mrs. Maria Quinn, mother of the dead girl; Miss Gertrude Ryan, an occupant of the car on the night of the accident; Raymond Murphy, the Slater family chauffeur, and State Inspector Silas P. Smith, who has been at work on the case since the accident.

LITTLE EDNA, A PERFECT BABY, IS BOSTON'S BOAST

Little Edna Grosblat, Boston's perfect baby, is almost a year old, weighs 23½ pounds, has hazel eyes and chubby cheeks. She is bottle fed and her mama calls her "September Mom" because of date of her birth.

Edna Marion G. Grosblat is Boston's "perfect baby" in its normal growth and development. Little Edna weighed only seven and one half pounds when she was born, but today tips the scales at twenty-three and one-half pounds. Every Wednesday for the past eight months, the baby has been taken by her mother to the station at the Elizabeth Peabody House, where it has been under observation.

Miss Hall said today: "Mrs. Grosblat has been an ideal mother. She has looked after the child so carefully and obeyed instructions given her so well that we are all proud of this ideal baby. It is a bottle baby, but the mother has been careful and attentive so that today for its normal growth, weight and looks, it may be easily designated a perfect baby."

Baby Edna likes to sit in her cradle and when she can get hold of her little hair brush she coos away in attempts to brush her locks, which her mother hopes are to be curly.

This perfect baby has hazel eyes, with a full developed chest, she can say "mamma," "good bye," "papa," and then likes to whisper into her mother's ears.

"She is just lovely all the time," says Mrs. Grosblat. "I feed her regularly every three hours, and I am careful to prepare the milk which I pasteurize myself. I like to do this. When first I saw my baby, I thought she would never grow up to be so strong and healthy, but I just took the best care of her and obeyed the instructions given by the physicians at the Elizabeth Peabody House."

"She likes me to say 'This little pig went to the market.' Then tries to do it herself. She is just a cunning little angel. We can't do enough for her."

BELLAN'S Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

George Washington—"Father of His Country"

EVERY AMERICAN knows that without "Immortal Washington our National Independence would have been impossible. Few, however, know that the greatest battle of Washington's life was fought to secure for his countrymen the Constitution of the United States. Almost immediately after the Revolution it seemed that all the great sacrifice of blood and treasure had been in vain. The original thirteen states refused to work in harmony either in spirit or in law. The new Republic was tottering to its foundations. At this critical period in American history the most brilliant men of each state met in convention and unanimously elected Washington as President—undoubtedly the most momentous gathering of the kind the world has ever known. Here he displayed as great ability as law-maker as he had as a warrior. For months the Fathers of the Republic labored, and finally adopted our present National Law, which forever guarantees Religious, Commercial and Personal Liberty. This was in 1787. Seventy years later Antislavery-Buch established their great institution upon the basis of the Federal Law which Washington did so much to create. Like all of the great men of his time, he was a moderate user of good old barley beer. For three generations Antislavery-Buch have brewed honest malt and hop beers. To-day 750,000 people are daily enjoying the best beer with the ever-increasing public demand. The great popularity of their famous brand—BUDWEISER—due to quality purity, mildness and exquisite flavor, has made its sales exceed those of any other beer by millions of bottles.

Visitors to St. Louis are especially invited to inspect our plant—open all hours.

TRENCHES IN VOSGES TAKEN BY FRENCH

By C. P. BERTLELL,
Special Correspondent of the Boston American.

PARIS, Aug. 23.—Capture of more German trenches in the Vosges, and bombardment by French aviators of the railway between Lille and Douai, are well as several important railway stations, are the chief military successes announced in today's official communiqué from the War Office.

The rest of the communiqué follows: "In the sector of Boucloux and Neuville, there were rifle firing and grenade combats without any infantry engagements."

"Between the Somme and the Oise and on the plateau between the Oise and the Aisne, the commanding on each side was rather vigorous."

"In the Argonne there were short combats with bombs and grenades, on the western borders at Fontaine Madame and in the forest of Fontaine."

"In the Vosges, on the crests of Hage and Buzenheid, after a very short combat followed a bombardment made in preparation, we captured some enemy trenches."

"The night was without incident on the rest of the front."

"During the day of August 22 our aeroplanes bombarded the railway stations of Lens, of Denain-Litard, of Louv and the railway from Lille to Douai."

The industrial warfare in Western Europe between Greece and Italy on the one hand and Turkey on the other was marked by another skirmish today when thirty Greek and as many Italians walked out of the plant of the American Leather Company, because ten Turks are employed there.

Greeks and Italians in other plants have already taken such action and in one case there was a lively scrimmage. Lieutenant Mullen and twelve officers were on guard about the factory today and prevented trouble.

CHILDREN OF RICH WIN HONORS AT NEWPORT TENNIS

William H. Vanderbilt and Alice Muriel Astor, two of the star tennis players among Newport children.

NEWPORT, Aug. 23.—The little men and women, sons and daughters of members of the Newport summer colony, have been among the most enthusiastic spectators at the lawn tennis tournament at the Newport Casino. It is the tradition of these little followers of the sport, who, under the tutelage of Thomas Pettit, superintendent of tennis in the Casino, are developing into such crack tennis players, to become prodigious enough to appear in important tournaments. The youngsters, all in their teens, are eager followers of the sport, and have appeared in many tournaments arranged for the small folk this summer.

Notable among the boy players are William H. Vanderbilt, oldest son of the late Alfred Greene Vanderbilt; Melton Hartman, Drexel Middle, Whitney Warren, Jr., Eugene S. Bernal, Jr., Cameron McT. Winslow, Jr., Henry Clegg, Jr., John Duncan, Brewster Jennings, Maurice Avery, Lady Sanford, Laurence C. Jennings, Garrick Mallory and H. O. Rivlin.

The girls among the tennis enthusiasts are as numerous as the boys. Miss Alice Muriel Astor, who is passing the summer with her brother, Vincent Astor; Muriel Vanderbilt, daughter of Mr. and Mrs. C. P. Vanderbilt, Jr.; Cathleen Vanderbilt, daughter of Mr. and Mrs. Reginald Vanderbilt; Florence and Barbara Lowry, daughters of Mr. and Mrs. Louis Lowry; Suzanne and Betty Pearson, daughter of Mr. and Mrs. Pearson; daughter of Mr. and Mrs. Henry Clegg, and as clever a tennis player as her cousin, Henry Clegg, Jr., and her brother, Charles, all are members of the Newport colony.

Bolt Hits Tower of Gloucester Church

GLoucester, Aug. 23.—During a severe storm here a bolt of lightning struck the tower of the Prospect Street Methodist Church, badly damaging it and throwing large splinters of wood into the street. There were no services being held at the time.

RUSSIANS STAND FIRM AT WEST FAVORS ALLIES' PROPOSALS

By International News Service.

BRUSSELS, Aug. 23.—That the Russians are going to make a mighty effort to hold the fortress of Brest Litovsk, the pivot of their second line, is shown by official dispatches from the front.

It is estimated that the Russians are using 15,000 men to defend Brest Litovsk, not counting the troops in the fortress quarters.

It is announced officially that the Teutonic allies in front of Brest Litovsk are meeting with the most severe resistance.

North and west of the fortress the Austro-German command under Prince Leopold of Bavaria and Archduke Joseph Ferdinand of Austria are hammering away at the Russian line, while south of the stronghold the armies under the immediate command of Field Marshal von Hindenburg are slowly pushing their way up the valley of the Bug River.

Fighting of the most savage nature is going on over a front of one hundred miles long, stretching in a semicircle in front of Brest Litovsk from Bialystok in the north to Vilna in the south.

Progress for the Teutonic allies is reported from Wilno, Lithuania, twenty-five miles northwest of Brest Litovsk, where the Austro-Hungarian troops are valiantly supporting the German line.

The German army, 75,000 strong, that took Novogorodsk, is already moving eastward to reinforce the Austro-German troops that are pushing away at the second line of the Russians. Only sufficient men were left behind to maintain the line of the Russian to repair the forts and take charge of the heavy guns, a number of which have been captured.

The German army, conqueror of Antwerp and Novogorodsk, who has become known as "the conqueror of Antwerp" because he is always pushing away at the second line of the Russian to repair the forts and take charge of the heavy guns, a number of which have been captured.

Progress is also reported for the German forces of Field Marshal von Hindenburg near Kottbus, but the deadlock in Galicia continues with no developments in the quarter.

RUSSIANS DELIVER COUNTER THURST AT GERMAN INVADERS

By International News Service.

PETROGRAD, Aug. 23.—Russian troops have made a counter thrust at points which their invaders had reported weakest, the troops of Grand Duke Nicholas have inflicted heavy losses upon their foes.

The Russians are now fighting under more favorable conditions and this is evident by the strength of the defensive which they have developed against the German thrust.

Petrograd military critics regard the ability of the Grand Duke to make successful counter attacks as proof that their morale is not broken and that the continued retreat is an orderly withdrawal before superior numbers.

Portuguese Colony Has a Revolution

LONDON, Aug. 23.—A bloodless revolution in Lourenco Marques, a Portuguese territory in East Africa, has been reported at Johannesburg by former officials of the district.

About 400 ultra Republicans seized the government offices at Lourenco Marques, says a Reuter Johannesburg dispatch, and deposed the acting governor. Preliminary military and civil constituted authorities without the firing of a shot.

Rates on Fruit for Boston Changed

WASHINGTON, Aug. 23.—The Agricultural Department today ordered by the Interstate Commerce Commission to change their rates on dried fruit from the Pacific coast to the East.

A rate of sixty cents a hundred pounds, when shipped in boxes, and eighty cents when in bags was fixed from San Francisco, San Diego, Richmond, Oakland and Bolinas Beach, California, to Boston, Philadelphia, Baltimore and Charleston, S. C.

Builder of Canadian Pacific Operated On

MONTREAL, Aug. 23.—Sir William Mackenzie, builder of the Canadian Pacific Railway, was operated on today following a sudden attack of illness. Sir William, who was born in Illinois, seventy-two years ago, was knighted in 1904 by Queen Victoria.

Cutter Sent to Aid of Wrecks in Gulf

WASHINGTON, Aug. 23.—The coast guard cutter Miami today was ordered to proceed from Key West, Fla., westward along the Gulf of Mexico to give aid to vessels wrecked in last week's hurricane.

British Schooner Sunk by Torpedo

LONDON, Aug. 23.—The British schooner Martha Edmonds has been sunk by a German submarine in the English Channel today.

British Flyer Is First to Sink Ship Full of Soldiers

MYTELLEN, Aug. 23.—An airplane comparable in importance of its results if not in its daring execution to that of Lieutenant Vassiloff, who destroyed a Zeppelin in the air in single combat, was performed by a British flyer today.

While flying over the straits in a seaplane, he sighted a Turkish transport carrying troops. Making straight for his quarry, he descended low enough to drop a heavy bomb full on her deck.

The resulting explosion split up the transport, which sank with all on board.

This is the greatest feat yet achieved by a seaplane in the outbreak of the war. No airman before him succeeded in sinking a military vessel laden with troops.

Secret Agent for Germany Said to Have Sounded President

By International News Service.

WASHINGTON, Aug. 23.—Allegations that German diplomatic and secret service officials have been able to learn the "actual feeling" of President Wilson and the chiefs of the State Department, through an agent who had access to the White House, caused grave concern in administration circles today.

The charge, as made public in that an agent of Germany had been named as "M. P." and what his views on the controversy with Germany and with Great Britain communicated them in the form of "conversations" to several of the many.

At White House and the State Department, concern was refused to give credence to the allegations. It was learned, however, that the agent of Germany had been tried to ascertain whether there was connection with the German agents in this country. The investigation as far as it was stated has failed to reveal that the President's confidence has been abused.

Italians Jailed by Hundreds in Turkey

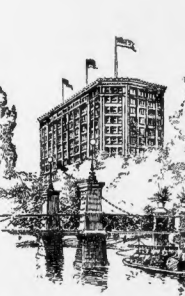

By International News Service.

ROME, Aug. 23.—Press dispatches from Athens and Salonica state that Italian subjects are now being arrested by the hundreds and cast into filthy jails. The Italian legation at Athens has received a rumor that the Italian ambassador of Turkey was threatened by a mob and that several windows in the embassy were smashed.

Expect Crisis in French Cabinet

PARIS, Aug. 23.—The abrupt dismissal of the cabinet of Deputies met next Thursday, it is expected, Premier Viviani will personally give the Government a mandate for the Congress concerning the conduct of the war. A crisis may be expected.

BRITISH H. L. FLEET IN GULF OF MOSKOW

GERMAN SUBMARINE SEIZED BY BRITISH

CONGRESS LIKELY TO BE CALLED OVER CRISIS

WASHINGTON, Aug. 23.—The United States will act promptly as soon as all the facts in connection with the destruction of the White Star liner Arabic by a German submarine have been received. It is said in official quarters today that the case is not to be followed by discursive diplomatic correspondence.

The German government will have an opportunity to offer an explanation, but the administration plans to draft a brief note of less than 500 words on the uselessness of extended diplomatic parleying, asking definitely that Germany give the assurances which this government has been trying for months to obtain. The note will have a tone of finality.

Information obtained from a high administration official reveals that President Wilson and his advisers have agreed on the course this government shall follow in the Arabic case.

If the facts show that the Arabic was sunk without warning and extenuating circumstances and Germany offers no satisfactory account, the administration believes its only course will be to sever all diplomatic relations with the government.

\$500,000,000 FOR DEFENCE.

Having done this, Congress will be called into an extraordinary session. Congress will be asked for an appropriation for putting the nation in a condition of preparedness, aggregating \$500,000,000.

The regular army will be increased to 800,000 and provision made for reserves under the plan of Secretary Garrison that would bring the available army up to 600,000.

Authorization will be asked for the immediate construction of six super-dreadnoughts and at least two, and perhaps three, fast battle cruisers.

The submarine feature will be solved by authorization for an adequate fleet of coast defence and seagoing craft of the latest type.

Provision will be made for many fighting aircraft, including aeroplanes, dirigibles and hydroplanes. A very large appropriation will be asked for this branch of the service.

Immediate attention will be given to a material increase in the coast defences and enlargement of the coast defence artillery.

WORK ARSENALS DAY AND NIGHT.

All government arsenals will be enlarged and every government factory put upon a twenty-four hour basis.

The private manufacturers of munitions for the allies will be encouraged and the United States will give its moral support and aid to the allies. Army and navy officers will be detailed to all private munition plants to aid in inspection work on the theory that the development of these industrial plants will enable the United States to obtain all the supplies it might need in the event of actual hostilities.

In other words, if the diplomatic relations with Germany are severed, the United States is to be the workshop for all Europe, save Germany and Austria, and the allies will have no fear of the supply not equalling any demand that may be made.

No American merchandise will be permitted to leave American ports for possible German or Austrian consumption and munitions

2 GERMAN SUBS SEIZED BY BRITISH

By International News Service.
NEW YORK, Aug. 23.—The vigilance of British patrol vessels of New York has been rewarded. It was learned today. Captain Schepeloff of the Norwegian steamer Starbuck from Bordeaux, reports he was stopped and searched by the British off Erie Basin. W. Threl, third officer, and H. Schmitt, a seaman, listed as German, were taken off. It is nearly five months since the last appearance of British cruisers.

Wet Enough for You? Cheer Up! More Rain Due

Possible showers, and rising temperatures—a steaming day—is the best the Weather Man can promise for today, to make up for the wettest of a whole year of wet Sundays. But it MAY clear up about tomorrow, although the most hopeful of the forecast find only a slant of sun shining before the tail end of a storm from the Gulf reaches us.

The Sunday downpour flooded Lexington, filled up electric cars in the Back Bay and flooded the Arlington Heights transfer station in Massachusetts, drenched the big Gulf stream, which drenched St. Louis, washed the Meramec River, Missouri, swept away buildings and caused a loss of life that may reach twenty.

Drives Off Without Giving His Name After Auto Crash

While crossing in front of No. 559 Commonwealth avenue, Mary Hines, twenty-two, of No. 25 Grady street, was knocked down by an automobile, sustaining a scalp wound and other injuries. The driver, who was the operator of the car put on speed and fled.

An automobile struck a carriage on Cambridge street, Wednesday, and threw three occupants, Miss Frances Seaton of Canal street, Winchester street, Woburn, to the roadway. They received sprained ankles, cuts and bruises. The draw-pin of the carriage broke, and the horse ran away dragging the front wheels.

The driver, who was the operator of the car put on speed and fled. The injured persons to the house of George Partridge and drove away for ward Boston without telling his name. His car bore a Rhode Island license.

Bolt Hits Tower of Gloucester Church

GLoucester, Aug. 23.—During a severe storm here a bolt of lightning struck the tower of the Protestant street Methodist Church, badly damaging it and throwing large quantities of wood and stone into the street. There were no services being held at the time.

HANNIS TAYLOR SCORES BRITISH

By HANNIS TAYLOR
International Law Expert and Former Minister to Spain.

WASHINGTON, Aug. 23.—The decree of Great Britain making cotton absolutely contraband is a brutal act of illegality which should be resented not only by the South but by the entire American people.

Apart from the declaration of London made at the instance of Great Britain whose Article 38 expressly provides that raw cotton shall never be made contraband of war we have the assurance given last Fall by Sir Edward Grey to our State Department that cotton would not be molested.

That assurance removed any possible technicalities based upon the idea that the declaration of London is not binding on Great Britain so far as cotton is concerned.

Our State Department should not admit for a moment that there is any doubt on that point and should act accordingly.

SWIMS 33 MILES IN GREAT RACE IN THE BAY

Henry J. Sullivan of Lowell can be today but as the greatest long distance swimmer in America, as a result of his wonderful aquatic feat accomplished Saturday evening and Sunday morning, when he swam a distance of about thirty-three miles in Massachusetts Bay, remaining afloat over fourteen hours.

Five swimmers started from Nantasket Beach Saturday afternoon. Sullivan and Sam Richards of South Boston, in a match race of 4 o'clock, and Henry Miron of Abington, Charles Park of South Boston and Arthur Smallcomb of South Boston, twelve minutes later with Provincetown as their destination, a distance of about forty-one miles.

That none of the starters were able to finish the swim is not a great surprise, for the attempt was the most difficult ever in the history of swimming in this country.

Sullivan lasted the longest in the water and swam a greater distance, and is considered the winner of his match against Richards, who was forced to leave the water at 9:17 on Saturday evening on account of cramps.

Sullivan started off with a machine-like breast stroke and never changed with the result that he established a new world's record for swimming with the breast stroke.

Charles Park remained in the water for over ten hours and reached a point off Provincetown. Miss Frances Seaton of Canal street, Winchester street, Woburn, to the roadway. They received sprained ankles, cuts and bruises. The draw-pin of the carriage broke, and the horse ran away dragging the front wheels.

Both Sullivan and Park were practically blind when taken out of the water in spite of the fact that they were wearing goggles.

The swimmers were favored with good weather, but the breeze which might have been to their advantage and the conditions were all against them.

Smallcomb and Park were taken out of the water at 11:17. Sullivan was taken out at 12:17.

STOLEN AUTO UTILIZED AS A POPCORN CART

PORTSMOUTH, N. H., Aug. 23.—An automobile which was stolen two weeks ago from the summer house of Mrs. George White at Newhook was recovered at Old Orchard and Kenneth Lipp of Holyoke, Mass., arrested on a charge of stealing it.

The machine had been stripped and a popcorn cart had been mounted on the chassis. The body was found in a garage.

The police believe that the machine was stolen the same night that a large touring car was taken and later found after it had turned turtle at Rice's bridge.

FLEET ROOK GREAT VICTORY FOR RUSSIANS IN RIGA SEA FIGHT

PETROGRAD, Aug. 23.—An official statement issued by the admiralty today confirmed the sinking of a German dreadnought (probably the battle cruiser Moltke) by an English submarine in the Gulf of Riga.

Russian warships sunk or damaged two German cruisers and eight torpedo boats, but the Russian gunboat Sivutich was sunk.

LONDON, Aug. 23.—The rejoicing in Petrograd today over the Russian naval victory reported off Riga in the Baltic is reflected here today.

Eleven German warships are said to have been sunk by the Russians, including the great \$12,000,000 battle cruiser Moltke, three smaller cruisers and seven torpedo boats.

It is officially stated in Petrograd that British submarines rendered signal aid in the fighting.

This sea action, the first important Russian naval achievement in modern times, is related in a dispatch to the Central News from Petrograd as follows:

"President Rodzianko of the Duma has announced that the Germans lost the battle cruiser Moltke, three cruisers and seven torpedo boats in the Riga battle."

The correspondent appended to his dispatch the following official communication:

"Confirmation of the naval victory in the Gulf of Riga was conveyed to the Duma Committee by M. Rodzianko, to congratulate the navy on its splendid achievement, and to convey to the Minister of War their congratulations on the defeat of the German invaders at Pernau by local forces."

"Among the German warships sunk is the battle cruiser Moltke. Four huge battleships filled with soldiers were captured and taken prisoners."

"Petrograd indulged in prodigious rejoicing today. The desperate efforts of the Germans to upset our military plans by creating a diversion on the Estonian Coast have signally failed."

"According to the news received today, they sustained heavy losses during the operations connected with the forcing of the Gulf of Riga."

"Added by the British submarines, we were able from the mother of the

WALSH COMMISSION SUGGESTS CURE FOR LABOR EILS; WOULD RESTRICT VAST FORTUNES

THE Walsh commission has today issued its report on the labor situation in the United States. The report is a long and detailed study of the labor problem, and it contains many suggestions for its solution. The commission is headed by Senator James C. Walsh of New York, and it has held many public hearings during the past year.

The report finds that the cause of the labor trouble is the unequal distribution of the nation's wealth. It says that the great fortunes of a few men are the cause of the poverty of the many. The commission suggests that the government should take steps to restrict these vast fortunes.

The report also suggests that the government should take steps to improve the conditions of the laboring classes. It says that the government should regulate the hours of work, and it should protect the rights of labor unions. The commission also suggests that the government should take steps to improve the education of the laboring classes.

LABOR'S LESSON FROM GREAT WAR

The lesson of the great war is that the laboring classes must be organized and must be able to defend their rights. The commission suggests that the government should take steps to improve the conditions of the laboring classes, and it should protect the rights of labor unions. The commission also suggests that the government should take steps to improve the education of the laboring classes.

The report also suggests that the government should take steps to improve the conditions of the laboring classes. It says that the government should regulate the hours of work, and it should protect the rights of labor unions. The commission also suggests that the government should take steps to improve the education of the laboring classes.

How much time do you have left?

Double Mileage Tires

Automobile owners all over the world write us that they are obtaining from "Nobby Tread" Tires twice the mileage they could get from other tires.

We absolutely know this to be true of the great majority of "Nobby Tread" users, because although the "Nobby Tread" mileage adjustment is based upon 5,000 miles to the tire,—"Nobby Tread" users all over the world are securing averages of

8,000 Miles
10,000 Miles
12,000 Miles

This supreme real anti-skid tire properly inflated is constantly giving tremendous excess mileages over and above its extraordinary adjustment basis of 5,000 miles.

We want to find and consult with any "Nobby Tread" users who are not securing excess mileage.

"Nobby Tread" Tires

are today the largest selling high-grade anti-skid tires in the world.

Boston Branch: United States Tire Company
560 Commonwealth Avenue

"Nobby Tread" Tires are sold by Leading Reliable Dealers. Do not accept substitutes

George Washington—"Father of His Country"

EVERY AMERICAN knows that without "Immortal Washington our National Independence would have been impossible. For however, know that the greatest battle of Washington's life was fought to secure for his countrymen the Constitution of the United States. Almost immediately after the Revolution it seemed that all the great sacrifice of blood and treasure had been in vain. The original thirteen states refused to work in harmony either in spirit or in law. The new Republic was tottering to its foundations. At this critical period in America's history the most brilliant man of each state met in convention and unanimously elected Washington as President—undoubtedly the most momentous gathering of the best the world has ever known. Here he displayed as great ability as law-maker as he had as a warrior. For months the Fathers of the Republic labored, and finally adopted our present National Law which forever guarantees Religious, Commercial and Personal Liberty. This was in 1787. Seventy years later Anheuser-Busch established the first insurance upon the terms of the Federal law which Washington did so much to create. Like all of the great men of his time, he was a moderate user of good old barley brew. For three generations Anheuser-Busch have brewed honest malt and hop beers. To-day 100,000 people are daily employed to keep pace with the ever-increasing public demand. The great popularity of their famous beer—"BUDWEISER"—due to quality purity, mildness and exquisite flavor, has made its sales exceed those of any other barley millions of bottles.
